

## Session: Living together at ease in a landscape of religions diversity and difference?

### Education matters!

The participants worked on issues of how freedom of religion, freedom of speech and opinion could be implemented in education. And furthermore how cross cultural dialogue and networking can raise efficiency and cooperation between stakeholders and youth. The concluding thoughts were summarized in 3 main topics: training and educating youth as equal stakeholders, integration and communication.

These “buzzwords” were later transformed into the following recommendations:

#### **Recommendation 1:**

*Member states should invest in education. Education of students and education of teachers in dealing with diversity and tolerance should go hand in hand.*

#### **Recommendation 2:**

*Refining the relationship of youth and stakeholders is a social responsibility ensuring that stakeholders recognize communication with the youth as a necessity.*
